

Retirement Seminar Part II Enjoyed By Members, Public

Georgia Heritage FCU members and the public enjoyed the second installment of an investments seminar held on April 13.

Dennis Davis of CUNA Mutual Group presented “New Retirement: Myths, Facts and Half Truths.” Wise investment choices were discussed including topics such as whether the stock market timing really matters, if investing on a tax-deferred basis is always best, and how much savings you may need for your retirement years. Investment Fundamentals Part I was presented in February at the credit union.

Each year, educational seminars are sponsored by Georgia Heritage FCU at no cost to members and the public. A meal is provided for attendees.

The next educational seminar is being planned for October.
